## History

Soon after landing at the Cape in April 1652 to establish the settlement intended as a supply station for ships sailing around the southern coast of Africa, Jan van Riebeeck planted the first vines in the Dutch East India Company's garden. His diary bears testimony to the success of these first experimental plantings with a note written on the 2nd of February 1659, "Today, praise be the Lord, wine was made for the first time from Cape grapes." Pioneer farmers began to settle in the mountain valleys and they planted several grape varieties, some of which have survived. The varying microclimates, soils and aspects of the Cape are well suited to viticulture. By 1685 the French Huguenot refugees had arrived in the Cape with their winemaking skills and they were largely instrumental in developing the industry in these ideal winter rainfall areas.

The first grapes grown in the Cape were mainly the muscat varieties, producing sweet musk-flavoured red and white muscadel wines, followed by semillon, which produces white wines, and cinsaut, which produces red wines. Since those early years winegrowing in the Cape has expanded to include well over a hundred different cultivars, notably white wine varieties such as chenin blanc, riesling, colombar, clairette blanche and semillon, and red wine varieties such as cabernet sauvignon, shiraz, cinsaut and pinotage, a South African hybrid from pinot noir and cinsaut. Today South Africa's vineyards extend over more than 100,000 hectares, with the various winegrowing areas grouped into regions consisting of districts and wards and producing approximately one-tenth of the output of France or Italy. We remain resolute in our quest to bring in the best of our vines. They are a combination of old bush vines and some terraine conquering shoots that continue to sprout across the land producing some vinous gems that only nature can produce.

### *Coravin Pour (Access Fine Wine By The Glass)*

Coravin is unlike any other product on the market. It gives you the freedom to pour and enjoy a glass of wine from any bottle at any time. Its proprietary technology keeps the cork in place, while allowing the wine to flow, protecting the wine remaining in the bottle from oxidation. The Coravin System will transform the way you experience wine.
